Sexually Abusive Behavior Assessment

Service Description: A clinical assessment of a juvenile's current level of functioning; includes an assessment to determine sexualized behavior issues, address the frequency and pervasiveness of risk-related and protective factors; identifies dynamic risk factors as treatment targets; and provides risk-and needs-relevant recommendations for effective interventions and treatment intensity to reduce the juveniles risk for re-offending both sexually and non-sexually. Conclusions and recommendations are based on the least restrictive level of care.
